

SpeedSign

Driver Feedback Displays

SpeedSign reminds drivers of their speed in school zones, near pedestrian crosswalks, and at high-accident locations.

Advanced Technology

All functions are user-configurable. Serial port or wireless interface connects the display system to an external computer. No special software is required.

State-of-the-art K-band radar gathers up to 10 readings per second, tracking the fastest target.

Simple menu for programming and download - data gathered can be exported to a spreadsheet program.

Timer function allows setup of specific intervals of time for operation on a weekly basis.

Simplified Installation

Universal pole-mounting hardware allows easy and versatile setup.

Rugged and Reliable

The Lexan cover front is weather-proof and virtually maintenance free with superior quality housing and electronics.

2-Year warranty

Superior Safety

Programmable violation threshold warns speeding drivers by rapidly flashing the display.

High speed cut-off setting prevents drivers from using the display as a gauge, discouraging street racing.

A variety of sizes and options are available to meet your requirements.

Specifications

General

Power supply: 120VAC or solar
Size: 24" x 36" x 10" standard, 36" x 48" x 10"; other sizes available
Sign: "Your Speed" in black letters on diamond grade reflective white background
Operating temperature range: -22°F to +158°F
Case: Aluminum, black powder coated, protection IP54
Front: Lexan®, clear
Weight: 23lbs +
Programmable violation limit, with flashing display on violation
High speed cut-off
Internal Radar
7 day on/off timer
Tuning fork, cable set
Automatic brightness control
Serial interface
Universal mounting bracket
Manual
MUTCD compliant

Radar

Frequency: K-band (24.15 GHz, ± 50MHz), FCC approved, no license required
Detection Range: up to 1500 ft
Precision: 1%, +/- 1 digit
Target acquisition time: 0.021ms

Display

Number of digits: 2 (0 – 99), optional 2 ½ digits
Digit size: 13" standard, optional 16" or 18"
Units: mph
LEDs: Ultra bright, amber, high efficiency
Format: 7-segment

Options

Data logger: date/time, speed - 700,000 records upgradeable to 3.5 million
Wireless interface for data download to computer (WiFi, RF, PDA or Bluetooth)
LED variable message - "Your Speed", "Slow Down"
Relay output - for external devices
Portable tripod-mounted unit with rechargeable 12V batteries
Wireless remote display
Keypad
Ethernet connectivity
Statistical analysis package
Statistical report by email
