

Certified by ISO9001 International Quality Control System

JXM-120AC Series Speed Sign Lamps

Features

- Conform to latest applicable ITE specifications
- Low power consumption & long operating lifetime LEDs
- Retrofit design & UV stabilized lens
- MIL-STD-883 mechanical vibration
- MIL-STD-810F moisture resistant
- Compliant to FCC Title 47

Dimensions

Fig. A

Model Number	Figure	Size (mm)		Voltage (Typical)	Voltage Range	Power (W)
		Inches	mm		60 Hz(AC)	
JXM-120AC20	A	12x12	300x300	120V-60hz	80v-135v	6

Note: Available in different numbers and colors (colors conform to MUTCD/ITE standard color wavelength in Yellow, Portland Orange, Red, Lunar White, etc.)

All applicable characteristics, including visual characters, chromaticity, moisture and vibration resistance, electronic noise, transient protection, etc., are conformed to standards specified in ITE LED Vehicle Signal Modules.
